PROFILE

Operations professional with three years of experience coordinating shipment schedules, resolving exceptions, and documenting frontline processes. Interested in bringing a practical understanding of operational workflows to software delivery.

EXPERIENCE

Operations Coordinator | Saegil Logistics

2023 – Present

- Coordinate roughly 120 daily outbound orders across four carrier partners and resolve schedule changes with warehouse teams.
- Created spreadsheet templates and step-by-step guides that standardized order checks for new team members.
- Compiled weekly delivery-delay reports and presented recurring issues to operations managers.

SELECTED PROJECT

- Built a personal Python script to consolidate shipment CSV files and flag missing tracking numbers.
