

Minji Choi

Senior Frontend Engineer

Seoul, South Korea | minji.choi@example.com

PROFILE

Frontend engineer with six years of experience shipping B2B management products. Combines customer interviews, accessible interface design, and usage analysis to improve adoption.

EXPERIENCE

Senior Frontend Engineer | Nextboard

2021 – Present

- Built a React and TypeScript admin console and interviewed 12 customer administrators to identify usability issues.
- Reduced a core workflow from nine steps to five; weekly feature usage increased from 42% to 58%.
- Documented reusable design-system components adopted by three product teams.

Frontend Engineer | PageLab

2020 – 2021

- Delivered customer dashboards and improved accessibility and load performance across key screens.

SKILLS

React · TypeScript · JavaScript · Frontend testing · Accessibility · Product analytics
