

Serin Oh

Customer-Facing AI Engineer

Seoul, South Korea | serin.oh@example.com

PROFILE

AI engineer with six years of customer-facing delivery experience. Builds retrieval-based LLM applications with customer teams, translating security and workflow constraints into working software.

EXPERIENCE

Solutions Engineer | Pine AI

2022 – Present

- Scoped and built document-search LLM pilots for three finance and retail customers, including data-access reviews with customer security teams.
- Wrote the FastAPI backend and React review interface for a support tool deployed to 120 agents at one customer.
- Collected incorrect-citation examples and adjusted retrieval chunking and prompts to improve response quality.
- Led two weeks of on-site training during launch and handed support procedures to the customer's operations team.

Software Engineer | Cloudwave

2020 – 2022

- Delivered customer API integrations and deployment automation for cloud applications.
-
