

Jaemin Song

Forward Deployed Engineer

Seoul, South Korea | jaemin.song@example.com

PROFILE

Deployment engineer with eight years of experience delivering enterprise software and LLM workflows. Owns discovery through production handoff, coordinates security reviews, and measures workflow adoption.

EXPERIENCE

Forward Deployed Engineer | Ascent Cloud

2022 – Present

- Led discovery, architecture, implementation, and operational handoff for four manufacturing and insurance customers.
- Built Python services, TypeScript and React review tools, access controls, and audit logs for production document workflows.
- Reached 310 weekly active users across two customers and reduced average review time from 38 to 24 minutes per case.
- Established a 500-case citation-coverage evaluation set and weekly regression runs.
- Created a reusable permissions module and deployment checklist applied to two later customer launches.

Full-Stack Engineer | Oncore Tech

2018 – 2022

- Built B2B data-product APIs, web interfaces, and production monitoring.

SKILLS

Python · FastAPI · TypeScript · React · PostgreSQL · RAG · LLM evaluation · Cloud operations
